THE BEACH HOUSE

natural beauty

As you head north, fly over some of the most beautiful atolls where the islands become larger, greener and the beaches more spectacular

Spread over an idyllic private island in the far north of the Maldives, surrounded by coral reef lagoons, stunning natural beaches and luscious vegetation, rare in the Maldives, is The Beach House at Manafaru.

The Beach House has 68 villas, each with private pool. Designed to celebrate traditional Maldivian style, they feature private outdoor dining areas, open air en-suite bathrooms and traditional thatched roofing. Beach front villas have a private courtyard and sala for protection from the sun. Suites and water villas boast the addition of a Jacuzzi. Water villas have glass panels in the floors to enjoy the spectacular marine life below. Indoors the villas are equipped with all mod cons; internet access, LCD TV's and iPod hook up. And yes, there is a butler who will tend to your every need.

Work out at the fully equipped gym or cool down in the infinity pool. Divers can explore the local ship wrecks and experience spectacular dive spots. Close by are two private islands. One dedicated to motorised water sports and the other for guests seeking more intimate experiences and beach picnics.

Dining can be in the romantic over water pavilion, on the beach, in the Asian specialty restaurant or in the privacy of your villa. Freshly-caught seafood and Maldivian specialties share the menu with culinary treats from around the globe, complemented by wines from the island cellar.

Surrounded by lush tropical vegetation is the jungle style Spa with sauna, steam room, plunge pools and indulgent floral baths. The treatment rooms are dotted intermittently throughout the foliage to create a truly back to nature experience.
