Ideal time to visit:

Daytime air and water temperatures seldom vary from the low to mid-80s, and as they are close to the equator, the Inner Islands rarely endure tropical storms or high winds. The more humid rainy season (when the ocean is usually calm) typically runs from November through April, though the downpours seldom last more than an hour or two before the sunshine returns.

Special Experiences in the Seychelles

SNORKELING & DIVING: The Seychelles offers hundreds of miles of coral reefs and rocky outcrops for both snorkelling and scuba diving. The waters are warm, safe and clear providing an abundance of marine life thriving on the rich underwater flora and fauna. Be sure to check the best snorkelling and diving spots in advance.

FISHING: Seychelles has some of the richest fishing grounds in the world and Big Game Fishing is available from most resorts. The abundance of wahoo, sailfish, dorado, tuna, rainbow runner and trophies such as marlin, make for an unforgettable big-game fishing experience.

ISLAND HOPPING: To fully experience the Seychelles we recommend you "Island Hop" by aircraft or by boat for a day or extended stay. Each Island has its own geography, character and history. The inner Seychelles is an area of 43 granite Islands whilst the outer islands are tiny coral atolls, all naturally beautiful. We highly recommend you pre book all arrangements before you arrive.

TABLES & LABELS: Wining Dining is a fabulous affair with options ranging from beautifully appointed tables on the beach, casual picnics at a location of your choice to fine dining with some of the best wines from around the world.

ROMANCING: The sheer isolation and natural beauty of these unspoiled islands alone creates the ideal setting for romance. Endless beaches perfect for private dining and dining under the sun and the stars. Villas too beautiful to leave, create perfect venues for candle lit dinners.

SPA-ING: Beautiful spas in truly amazing locations, usually outdoors and integrated with stunning landscapes: Built into rock, positioned hillside overlooking the Indian Ocean or perched on a cliff-top plateau. Kreol inspiration dominates and there is a tendency for local ingredients such as nutmeg, coffee and coconut.
