

## BANYAN TREE SEYCHELLES

*One of the 10 Most Beautiful Beaches in the World*

Banyan Tree Seychelles sits proudly on the island's south western coastline in a peaceful enclave overlooking what has been described as one of the 10 most beautiful beaches in the world.

Banyan Tree adopts the design of its colonial past and is Seychellois architecture at its best. Creole influences are evident in the timber porticos and white timber walls.

The spacious seafront veranda is a wonderful place for afternoon teas or evening G&Ts. Dining choices include the signature restaurant, the informal Au Jardin d'Epices and the outdoor Beach Picnic restaurant where romantics will adore dining under the stars.

The 54 one bedroom villas, all with private pool, are strategically located to maximise ocean views and natural landscapes. The Hillside Pool Villas are superb; smart, private and with wonderful individual pools surrounded by the serene rainforest.

The spacious Beachfront Spa Pool Villas come complete with a private pool, seductive massage pavilion, sprawling veranda, outdoor jet pool and steam room. The Intendance Pool Villas ensure a bird's eye view of the azure Indian Ocean while The Pool Villas by the Rocks are surrounded by artistically shaped boulders.

Banyan Tree Spas are renowned for their tantalising treatments and blissful pampering sessions. Indulge in calming treatments in the privacy of your villa or in the Spa's luxurious pavilions nestled amidst the lush tropical vegetation and natural granite boulders. The open-air pavilions are swathed with billowing drapes, set in the forest high above the bay and indoor sanctuaries where you can sink into rose-petal baths and indulge in rain mist steam and shower rituals.

Banyan Tree Seychelles is gorgeous from top to toe, with its legendary spa, and has just a hint of Thailand to reflect Banyan Tree's origins.
