

NORTH ISLAND

Like No Other

The Seychelles most exclusive private island eco-retreat. The resort has been designed to integrate effortlessly into its natural surroundings. It is tiny but perfectly formed with two main beaches, each stretching for more than a kilometre.

The 11 villas are like no other and no luxury has been spared. Set back from the beach overlooking the ocean, they are incredibly spacious and decorated with eclectic pieces and African artefacts, their design best described as 'jungle chic'.

Each villa comes with a butler and has plunge pools, indoor and outdoor showers. There is a sumptuous living room with funky tribal chaise lounge, the bathroom has a seductive sunken bath and a gorgeous colonial bedroom swathed in billowing muslin under a towering thatched ceiling. The attached pavilion with dreamy day bed and oval plunge pool completes the Robinson Caruso experience.

The focal point of North Island is the Central Piazza set on East Beach and fitted out with retro beanbags and sofas, with a deck built around the natural contours of the granite boulders.

Breakfast, lunch and dinner can be taken on the beach at beautifully appointed private tables, or as casual picnics, while it is mandatory to begin your evening with a sunset cocktail at the West Beach bar. A wine cellar has hundreds of the best wines from around the world. The resort's innovative design allows staff to turn every little nook and private bay into a restaurant just for two.

The wellness centre is positioned hillside overlooking East Beach although treatments can be taken on the beach. The legendary hot stone massages and mineral spring baths are guaranteed to melt away any remaining cares.
